THERMO-FORMING

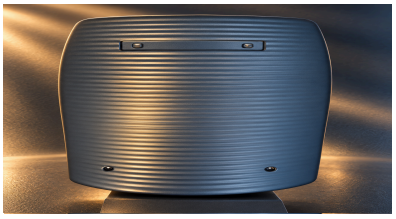

QIN-FORM
more than plastic

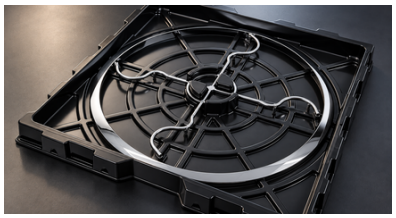

Whether high-quality decorative surfaces, technical components or robust transport solutions are required - thermoforming often provides the right manufacturing process for product realization.

TECHNICAL PARTS

Covers, receptacles or drawer inserts made of PS, ABS or PC.

TRAYS

Load carriers from individual packaging up to Euro-pallet dimensions. Safe and cost-effective logistics for all.

AUTOMOTIVE INSERTS

NON-AUTOMOTIVE INSERTS

From building technology to household appliances - decorative surfaces created
with high-quality inserts.
